

### MSOSH Activity

Discussion in the meeting room between MSOSH and JKKP

### OSH to the NEXT LEVEL

10 January

On 10 January we were given the opportunity to meet with the JKKP - General Director Omar Omar Piah, the crime scene Mr Mohd Anuar Embi and Mr Ir Zailee and the JKKP management together with MSOSH.

It was an excellent discussion to bring OSH in Malaysia to the NEXT LEVEL, he said after 25 years of OSHA 1994.

What does NEXT LEVEL mean?

The next level for the SH Practitioner is self-esteem - thinking, work, ethics, communication, **level competent** to **professional leadership**. In other words, OYK has to increase its **quality**, **self value** in order to contribute more to OSH in Malaysia.

Every employee, employer, government and competent person must carry out their duties professionally. Because we have no other OPTION except to continue to look forward OR to be left behind. There are still many disadvantages to each other, however travel and destinations with the improvement program will brings us to the same objective, which is the workplace **more safety and healthy for all**.
